

## Vaccination Questionnaire

Owner name: \_\_\_\_\_

Dog  Cat Name: \_\_\_\_\_

Date: \_\_\_\_\_

Is your pet current on his/her vaccines?  Yes  No

Has your pet had a Bordetella vaccine in the past 6 months?  Yes  No

This hospital treats many patients that are ill. Please be aware that if your pet's Bordetella vaccination is not current, he/she may be at risk of contracting kennel cough. Even being vaccinated unfortunately does not protect your pet from every strain of Bordetella that could be contracted, so on occasion a vaccinated animal can develop kennel cough.

We work hard to sterilize and disinfect all of our spaces and equipment; however, kennel cough spreads through the air. With the added factor of ill pets having decreased immune systems, we want you to be aware of the risks associated with kennel cough.
