

To our valued clients:

As the news and information continues to spread about COVID-19 (coronavirus), one thing remains the same: at BluePearl Specialty & Emergency Pet Hospitals, the health, safety, and wellbeing of our patients, staff, and community is our number one priority.

We are deeply committed to offering a safe and healthy environment for you, your pets, and our hospital teams. To do this, we are implementing a new patient intake procedure at all of our Tennessee locations to ensure that we can continue to provide emergency and specialty services to patients with the most urgent medical needs.

Curbside Service

Please be advised that in order to safely care for pets and their families, we will be offering curbside service for all visits. If your pet is experiencing an emergency or has an appointment with a specialist, please call us and a team member will walk you through the process.

This change will allow us to achieve the social distancing recommendations from the CDC and help us to continue to provide the best emergency and specialty care for pets in need of care. We appreciate your patience, as we will likely be experiencing an increased number of calls due to these changes.

Thank you for entrusting us with your pet's care.
